I OPPOSE granting a 401 water permit for the construction of the proposed Atlantic Coast Pipeline. This construction would be devastating to our state's environment and to the health of the people of North Carolina. Please, Governor Cooper, do all in your power to end this destructive project. Help us convert to non-fossil forms of energy. We can do it, and we can save our planet. You have such power to make a difference for good and to turn us away from this destructive path.
